

A background of various medical and healthcare icons in white and grey, including syringes, pills, bandages, and anatomical diagrams, set against a light blue and white pattern.

REGIONAL PROCUREMENT CONFERENCE | 20 21

Procurement After the Pandemic

13 and 14 May 2021

Grand Hotel Bernardin, Portorož

Regional Procurement Conference – leading regional conference, with the longest tradition

A well-managed and proactive procurement function, which is closely aligned to other business functions and with its suppliers, can have a significant impact on the company's business performance. And the Regional Procurement Conference has become a central meeting place for 200 purchasing professionals, managers, speakers and service providers from leading Slovenian and regional organizations!

The global pandemic has caused a temporary disruption of supply flows and a fundamental shift towards localization of supply and diversification of suppliers, where ever economically possible. After a year of living with a pandemic, we should congratulate ourselves on successfully adapting to the new reality. But as we emerge from the pandemic, new challenges await, brought upon us by the inevitable economic crisis. The conference programme is addressing the challenges of an uncertain future. The main conference topics are strengthening resilience and robustness in the light of macroeconomic, geostrategic and strategic changes, identifying opportunities for innovation and efficiency in procurement, procurement risk management, procurement & purchasing strategies and leadership in the Era of uncertainty.

The Regional Procurement Conference will once again become a central point of procurement knowledge, information and networking by focusing on key procurement topics and trends, delivered by outstanding professionals and by celebrating professional achievements with the Purchasing Manager of the Year award.

Join us at the leading regional annual event for procurement managers!
